Industrial Packaging Equipment, Systems, Support & Service

October 20, 2025

Thanks for your inquiry regarding our GB bagging system. This machine and associated equipment is ideal for bagging granulated, free flowing materials into paper or poly woven bags at a rate of up to 4 bags per minute. Please see video link demonstrating this system in operation: <https://youtu.be/Wa-yaVJNPvU>

Please see attached price sheet. Our system is designed to be modular so that you can purchase either a complete system or individual components.

4 Bag per Minute Bagging System for Free-Flowing Granular Materials

QTY	Model / Part No.	Description	Price
1	GB Mechanical Bagger (Carbon Steel)	Digital gross weigh Gravity Style Open Mouth Bag Filler for Packaging 30-60# (13.5-27KG) Bags with Free Flowing Granular & Pelleted Materials. 100% Mechanical. No Air or Electric Required. Painted Carbon Steel Construction.	\$3,900.00
